Liner Cover'Liner Premium Concrete

EFFICIENT PROTECTIVE BARRIER (walls and bottom) between foundations and liner

- Shock absorption
- Protects against perforation: thickness and density fibres protect from any sharp elements
- Hides any imperfections of concrete walls

ENVIRONMENTALLY FRIENDLY

- Manufactured with thermofusion fibres (low energy consumption)
- No chemicals binders or latex
- Eco-designed and recyclable felt

INERT MATERIAL / ROT-PROOF

ANTI-BACTERIAL FELT

- anti-bacterial (no pink stain according to ASTM E 1428)
 - anti-fungal (according to EN ISO 846 Section A)
 - anti-algae (according to SAN BIO 33/99)
- Test on request.

EASY INSTALLATION

- Easy to cut
- Bright flecked grey avoiding light reflection
- Edge-to-edge installation

TECHNICAL DATA

Surface :

needlepunched homogeneous felt containing a biocide product (substance active Thiabendazole / N-Butyl-benzisothiazolinone)

Fibres: 100 % polyolefin, naturally resistant to wet environments and treated Sanitized®

Backing: thermofusion fibres

Thickness: 2,7 ± 0,3 mm

Ø roll: 35 cm

Total weight: 350 g/m² ± 10%

Ø tube: 100 mm

INSTALLATION

Clean the concrete to remove all the dust

Smooth surface: towards liner

Slightly fibrous surface: concrete, wood or metal side

Glue with a spray glue.

1,5 x 30 m

PMMTF1985G150

2 x 30 m

PMMTF1985C2

On order with 5000 m² minimum

Sold in europalette of 8 rolls vertically stored
