

The expo carpet tile

EXPO QUADRA

by SOMMER

Carpet tile with a velour aspect,
specially developed for temporary uses
such as fairs, congresses, theater stages...

- Lightweight and hardwearing
- Attractive and comfortable underfoot
- Easy to install
- Very good adherence
- Personalised and identifiable
- Easy to maintain
- Eco-designed and recyclable
- Easy to uplift and store

Collection 2023

LIGHTWEIGHT

With its 3200 g/m², **EXPOQUADRA** is at least 50% lighter than most tiles currently on the market. This means:

- reduced physical demand on fitters during installation, removal and cleaning operations
- reduced transport costs
- a lower carbon footprint

RESISTANT TO WEAR

Coarser fibers in the tile structure increases its resistance and its lifespan.

ATTRACTIVE AND COMFORTABLE

Available in 8 colours, suitable for event spaces, the **EXPOQUADRA** tile will bring you comfort and sound insulation thanks to its velour construction. It is also possible to separate areas or highlight them by mixing different colour tiles.

EXPOQUADRA is available in 50 x 50 cm and 1 x 1 m tiles meaning closer cover of areas is possible. Restocking is very easy because we are manufacturers (factory located in the north of France).

	Net capacity	Expoquadra tile	Conventional event tile
40ft Trailer	24 tonnes	6000 m ²	5000 m ²
10T Truck	10 tonnes	3000 m ²	2000 m ²
Van	1,2 tonnes	360 m ²	250 m ²

Loose laid
on any A2fl
or A1fl class
substrate

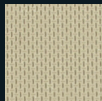

*Information on the level of emissions of volatile substances in indoor air, with a risk of inhalation toxicity, on a class scale from A + (very low emissions) to C (high emissions)

EASY TO INSTALL

The installation method is identical to that of other tiles. **EXPOQUADRA** is a self-laying tile and can be easily cut using a blade. With this velour textile tile, you will be able to obtain a checkerboard or plain effect by changing the direction of lay; utilizing an arrow printed on the reverse side of the tile. Batch numbers on the back of the tile also avoid mixing batches in the same laid area.

VERY GOOD ADHERANCE

EXPOQUADRA has a white backing, unique on the market, with a contoured design, allowing better grip on the ground without marking it.

PERSONALISED AND IDENTIFIABLE

It is possible to print the owner's name on the back of the tile (subject to MOQ on request). This protects against possible theft during dismantling or errors in the case of multiple suppliers.

EASY TO MAINTAIN

Simple cleaning with soap and water is enough. Cleaning by suction or brushing machine is also possible, as well as a high-pressure cleaner at a reasonable power.

ECO-DESIGNED AND RECYCLABLE

Because sustainable development has always been at the heart of our business, **EXPOQUADRA** has been designed with polypropylene/polyethylene components having a carbon footprint much lower than that of polyamide/bitumen or polyamide/PVC components.

Unlike the bitumen backing, there is no odor or deformation. Dimensional stability is ensured by a glass veil.

At the end of its life, Sommer undertakes to take back your **EXPOQUADRA** tiles and to recycle them (contact us).

EASY TO UPLIFT AND STORE THANKS TO OUR NEW FOLDABLE AND STACKABLE CONTAINER

This foldable, stackable, lockable container protects the stacks during transport, storage and during dismantling periods (risk of theft and possible confusion).

It thus preserves the life of the tiles.

Capacity: 150 tiles 1 m x 1 m.

The container can be delivered alone or filled with tiles.
