|  <p>LC1</p> | <p>Luxury class</p> <p>This symbol indicates the comfort level of the floor covering. Variable from LC1 to LC5. The highest comfort class is LC5 with 5 crowns. A flat needlepunched carpet and a carpet without velour are always classified LC1.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|  <p>Good resistance for continuous use</p>  <p>Good resistance for occasional use</p> | <p>Office chair with casters test / Castor chair</p> <p>This symbol indicates the wear resistance of the floor covering by simulating the traffic of a office chair with casters.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|  <p>≤0,2%</p> | <p>Dimensional stability</p> <p>This symbol indicates that the floor covering is dimensionally stable.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

|  <p>ISO6356 Standard</p> | <p>Electrical behaviour</p> <p>This means that the static electricity that appears when walking on the carpet is immediately dissipated.</p> |
|  <p>EN ISO354 Standard</p> | <p>Sound absorption against impact noises</p> <p>This symbol indicates the sound absorption coefficient at shocks (α_w) which is defined by the ratio between the absorbed noise and the incoming noise. This varies by sound frequency. The absorption coefficient is between 0 and 1: 0: the material does not absorb any noise, so the noise is totally reflected 1: all noise is absorbed by the material</p> |
|  <p>EN ISO 140-6 Standard EN1307 : 2014 annex D (related to luxury class)</p> | <p>Acoustic insulation against impact noise</p> <p>This symbol indicates the performance of a floor covering against shock noise. It is measured in dB.</p> |
|  <p>EN13893 Standard</p> | <p>Slip resistance DS (Dry Slip resistance)</p> <p>This symbol indicates that the floor covering is slip resistant (coefficient of friction higher than 0.3).</p> |
|  <p>EN13893 Standard</p> | <p>Slip resistance behaviour NPD (No Performance Determined)</p> <p>This symbol indicates that it has not been tested.</p> |
|  <p>EN12524 Standard</p> | <p>Thermal resistance</p> <p>This symbol indicates whether the floor covering is suitable for use on a underfloor heating system.</p> |
